## Orion | Boardroom and Meeting Tables

## Orion | Boardroom and Meeting Tables

The use of steel with strongly contrasting timber tops gives the Orion range a modern, contemporary look that fits into almost any design scheme. The complementary range of Orion seating that is available blends in perfectly to complete a professional image. Orion is available in fixed, mobile and with folding options, for settings that need to be easily reconfigured. Both chrome and paint finishes can be specified on the frames, whilst the tops can be veneered in any number of the species available, quarter cut or crown cut, and perfectly book or slip matched.

## Folding Mobile Tables

ORION folding, mobile tables combine the functionality required in modern conference rooms together with the high quality of Hands veneered table tops. They have the ability to link together easily using a section of different mechanisms depending on the setting. These tables prove to be good value for money as a solution when a combination of flexibility, durability, a great image and price is important.

Oval shape table in 1/4 cut oak veneer

Table uses both single and twin pillar bases

Circular meeting table with chrome finish cruciform base

Rectangular meeting table on chrome finish single pillar bases
