

# Stiletto | Café club

303 Café Club armchair  
With walnut legs

A collection of seating that points to the latest in creativity from HANDS design team. It consists of generously proportioned club chairs in both single and twin versions, a sofa and a more compact **Café club** chair. The common theme is the crisp angular form that leads down to the beautifully crafted solid timber Stiletto legs. The **Café club** version of Stiletto has a useful sitting height that allows it to be used both in break out areas, bars or as a table chair in executive meetings and boardrooms. Its deep buttoned luxury upholstery gives a truly sumptuous feel, whilst its retro looks and evident craftsmanship leave a lasting impression.

# Stiletto | Mode & Sofa

301 Luxury armchair  
With walnut legs

The **Mode** club versions of the Stiletto range include a generous single and twin seat. They share the same proportional lines that lead down to the beautifully crafted solid timber Stiletto legs. The twin seat version has a sculptured backrest detail and a central mini table that delineates each seat position, allowing strangers to still feel comfortable sitting side by side.

The **Sofa** in the Stiletto range is a generous three seater. Its sleek lines belie its comfort based on the highest quality foam, sprung frame and superb upholstery. Like the other models in the range it rests on the beautifully crafted solid timber Stiletto legs. The vast seating area can be divided by specifying rectangular, round or triangular cushions in a complimentary or contrasting colour.
